Welcome

Having recently celebrated our 32nd anniversary, we can't quite be considered a youngster among all the bars and restaurants in the Neustadt anymore. The wild times during the 90's and early 2000's are over, having left savage memories but tamed hearts.

Today our aim is to create an atmosphere for you to relax in. Be it in our first floor restaurant, in the cozy basement or in our peaceful backyard – you'll certainly find a comfortable place.

We are there for you every day of the week: for dinner, for brunch on Sundays or maybe just for a nightcap.

In our menu you will find plenty of regional products like our tea which we receive from the little "Teezeit" shop just down the street and our coffee which we obtain from "Essebielle" in the Hecht quarter, not too far from here.

Summer Drinks at the PlanWirtschaft

All meals are prepared by our kitchen. We therefore kindly ask you to be patient with our thorough and creative kitchen staff, especially on the weekends. Now please enjoy your meals, tip your waiters (we'll probably just spend it all on booze after work – but do it anyway ;), recommend us and, hopefully, come back with your entire family.
